

Call To Carry Out Terrorist Attacks in Israel

The "Shabakat Masajiduna Al-Da'awiya" (The Da'awa Network of our Mosques), <http://www.msajedna.ps>, recently posted a message calling for Palestinian factions to carry out terrorist attacks in Jerusalem, in order to protect the Al-Aqsa Mosque.¹

The Da'awa Network of our Mosques is a religious, Islamic-Palestinian website that presents itself as a charity supporting work for Allah, which "will bring on the victory of Islam and will make us his faithful soldiers."²

Jerusalem has recently experienced an increase in terrorist attacks characterized as self-initiative attacks, including stabbings, attacks by vehicles and shootings. It is possible that these terrorist attacks were launched in response to incitement propaganda published by various Islamic entities, including the aforementioned website, encouraging terrorist attacks in Israel in general and in Jerusalem in particular.

The message was also posted on an online forum affiliated with the global Jihad movement. It reads:³

Message No. 26: Jerusalem and Al-Aqsa are in Danger

The "Da'awa Network of our Mosques" calls for the redemption of occupied Jerusalem and the Al-Aqsa Mosque with lives and with any possible means. The "Da'awa Network of our Mosques" in Palestine denounces the break-in of the drove of hostile Jewish settlers, together with the soldiers of the Zionist occupation, to the blessed Al-Aqsa square. In addition, it condemns the distressing silence on the part of all the countries of the world in general and the Islamic and Arab countries in particular, in the face of these atrocious violations, performed by the criminal Jews against the captive holy Islamic places.

The "Network" calls to all those of conscience, who live for the redemption of the blessed Al-Aqsa Mosque and occupied Jerusalem with soul and spirit, and emphasizes that all means are legitimate in order to protect the blessed Al-Aqsa Mosque and occupied Jerusalem, including istishhad actions⁴ inside the holy city...

The "Network" warns the Zionist occupying government to halt these systematic acts and emphasizes that these violations will be regarded as the last nail in the coffin of this monstrous entity, and that a continuation of these violations will denote the end of the abominable occupation period over occupied Palestine.

Finally the "Network of our Mosques" calls to all Palestinian factions to use any means of opposition possible against the authorities and soldiers of the occupation and against the hordes of criminal settlers, including performing istishhad activities that will strike the entire fragile Hebrew country.
