

The 11th World Summit on Counter-Terrorism
September 13-14, 2011
Herzliya, Israel

What's next? Future Terrorist Scenarios

This workshop will examine the threat posed by Post-Modern Terrorists. Analysis will be conducted on future terrorist types of attacks, such as cyber-terrorism and Chemical, Biological, Radiological and Nuclear (CBRN) Terrorism. In addition, the workshop will also address the means, challenges and dilemmas in countering these threats.
