

The 11th World Summit on Counter Terrorism

September 13-14, 2011

Herzliya, Israel

New Media and Old Media

Their roles in politics, violence and terrorism

The "new" media versus the "old" media workshop examines the symbiotic relationship between the modern terrorism phenomenon, and the mass media – written, visual and electronic. The workshop will also look at the dilemmas which arise from the use of the new media and the internet for political revolutionary purposes, as well as for the perpetration of violent political activities.
