*Founded in 1996, the International Institute for Counter-Terrorism (ICT) is one of the leading academic institutes for counter-terrorism in the world, facilitating international cooperation in the global struggle against terrorism. ICT is an independent think tank providing expertise in terrorism, counter-terrorism, homeland security, threat vulnerability and risk assessment, intelligence analysis and national security and defense policy.*

*The combined assets of ICT expertise within the academic framework of the Lauder School of Government, Diplomacy and Strategy at IDC Herzliya create opportunities that allow students to undertake a B.A. with a concentration in Homeland Security and Terror Studies as well as a M.A. in Government with specialization in Counter-Terrorism and Homeland Security Studies. These degree programs draw upon renowned faculty and researchers, creating a Homeland Security program that is unique.*

*In addition, the ICT is offering Homeland Security Certificate Courses which offers highly acclaimed education curricula geared for individuals and organizations that interface with counter-terrorism, intelligence and security concerns, as well as special orientation courses tailored to first responders. The objective of these programs is to provide a deeper understanding of the strategy and psychology of terrorist networks, and to foster a greater awareness of issues related to international terrorism.*
